WASHINGTON, Oct. 25. (Exclu-

so. His view was supported by the Treasury and other branches of the government whose operations bear on financial and industrial matters.

The president cited the financial, industrial and commercial conditions throughout the country and nowhere in his analysis did he indicate he found a sound reason for the unprecedented crash of securities in Wall street and other stock exchange centers, nor for the

# PILOTS BLAMED IN AIR CRASHES

Navy's Survey Shows Human Element at Fault

Engine Failure Charged in 'Only One Fatality'

Plans Evolved to Reduce Hazards in Flying

WASHINGTON, Oct. 25. (AP)—The Navy Department has just completed an analysis of accidents in its air service, which, it says, "invariably shows that the predominant responsibility for crashes rests on the pilot."

Fifty-two per cent of all crashes during the eight-year period covered are attributed to errors of pilots, against 31 per cent caused by either structural or power-plant failures; 9 per cent caused by condition of the airport, and various smaller proportions attributed to miscellaneous causes.

PILOT TO BLAME  
"It is interesting to note," the report said, "that during the last eight years naval aviation history shows only one case where a fatal accident was traceable solely to engine failure. In all others at least a portion of the responsibility devolved upon the pilot."

The bureau concluded from the study that greater elements of safety must be introduced into construction of planes to reduce demands on the "necessarily fallible human element."

consequences through his greater skill and ability."

Other findings given included the statement that a pilot quadrupling his frequency of flying reduces his accident hazard to almost a half; that the records of pilots who have fatal accidents show they have had almost two and a half as many accidents as those who never figure in catastrophes; that one-half of the fatal accidents result from a fall spin, 84 per cent of these occurring without engine failure and 80 per cent from an altitude of 200 feet or less.

"The answer in military aviation where high maneuverability is essential is not immediately apparent," the report said. "However, it would appear that in commercial aviation, unhampered by this particular requirement, the aircraft of the future must be so designed that it cannot be spun. When this is done, and present developments indicate its possibility, fatal accidents will be reduced tremendously."

Chief of Police O'Driscoll shot only in self-defense, that expansion will create Communist sympathy.

It is now nearly four years since I began observing conditions in that part of the South bounded by the Florida line on the south, the western line of Alabama, in common with those of the North, supposed that the last trenches of conservatism in the United States were in the South, with its almost entire freedom from those foreign stocks that brought with them and have cultivated here philistine alien to America.

The plan of the Communist party leaders, meeting on the call of William Z. Foster in Chicago in December, 1925, to invade the South, seemed interesting, therefore, but not important.

BORING IN  
Within the year, however, it became apparent that, alien though Communism might be to that section, the Communists were making real progress with the aid of their activities in the Piedmont region, whence they spread, quietly but surely, into other fields.

Just how far they have spread may be judged from the fact that early this month the National Textile Workers' Union, the largest of the Communist party leaders, was prepared to stage demonstrations in no fewer than two Southern mill towns.

"Can you do it?" I asked a Communist leader in attendance at the Gastonia trial.

"Yes," said he, "and we will. The strikes will be off like a string of firecrackers over a period of several days until you'll think the whole South is aflame."

To these the Communists appealed. From them they received a certain measure of support and sympathy. The Communists, they argued, were harmless and anywhere tolerance should be the watchword, the more so if, as happened in some places, women of good family were inclined to applaud the Communists and sneer at those who might oppose them.

There was, in fact, little opposition to them, most of it being provided by Mrs. Edward C. MORE DISCONTENT  
Indeed, the rule is that the farther south one goes the lower are wages, the poorer the working conditions and the greater the discontent which the Communists always plan to capitalize for the execution of "the revolution."

The preparation for this upheaval and not the economic improvement of the mill hands is the objective of the National Textile Workers' Union, as explained by Foster, head of the Communist party in this country, writing on "Strategy."

# BOY'S WISTFUL POETRY DECIDES LEGAL BATTLE

CHICAGO, Oct. 25. (AP)—Sometimes law is not merely a matter of solemn-faced judges, important-looking lawyers and fat bailiffs. Sometimes law is a bit of wistful poetry.

To George W. Morgan, Jr., 11 years of age, it was like that. He did not see his father and mother fighting at law for possession of him. What he saw was golden sun filtering through trees in autumn; leaves turned golden; and the blue haze that sometimes veils the North Carolina mountains.

George, was in court with his mother, Mrs. Lillian Morgan Patterson. They said she had kidnapped him from his father in North Carolina. And George, Sr., wanted the boy back. Judge Craig Hood was asked yesterday to decide.

The court put the question to the boy, and the boy answered: "I want to live with my mother in Illinois—all the time but in the fall. The leaves are turning brown in North Carolina in the fall; and then I want to be with my father. It is so pretty there, in the fall. And Judge Hood entered the order that way. George, Jr., can be with his father when the leaves are turning brown."

# RED INFECTION TAINTS SOUTH

Communism Finds Foothold Among Old Stock

Carolina Mountains Hotbed of Socialist Dogma

Doctrine Appeals to Class Always Law to Selves

BY JOHN J. LEARY, Jr.

(Copyright, 1939, by the North American Newspaper Alliance)

NEW YORK, Oct. 25. (Exclusive)—Replying to the question, "Is Communism making progress in the South," I must answer, "Yes, and to an extent unsuspected by most of the people of the South, or those of the North."

It is my judgment that once the shock of the Charlotte convictions and the stiff sentences handed out by Judge Hood in the hill country, Communism will make even greater progress for a while, owing to the peculiar psychology of the hill people who make up so large a proportion of the operatives in the mills.

AFTER HIS OWN HEART  
The hill man has always been set up only those who are suspicious of him and on his own account, with rifle and shotgun. He has an intense sense of justice and when it is explained to him, as it is being explained, that Beal and his six associates convicted of the murder of Chief of Police O'Driscoll shot only in self-defense, that expansion will create Communist sympathy.

POLITICAL CONSPIRATORS  
This, it will be noted, is in flat contradiction of the trade union policy of the objectives of which we are a party of the working class."

The Communist survey included managements in the local political conditions, the size and scope of the industry locally, local relations with their employees, with a special eye for disaffection.

These making it further necessary to make local contacts, especially with persons known to be liberal in thought, and wherever possible to set up "nuclei" in which local men would be at the head and front, the organizer making himself as inconspicuous as possible.

This was shrewd psychology, for your southern hill man is suspicious of him and on his own account, with rifle and shotgun. # ARMY HOUSING FIGURES GIVEN

Progress Shown by Report of War Department

Large Number Now Occupy Permanent Quarters

Program Completion Within Set Period Expected

WASHINGTON, Oct. 25. (AP)—Considerable progress in getting the Army out of temporary and into permanent living quarters is shown in figures compiled at the War Department.

Although the problem, which first became acute in the latter part of the Harding administration, still is recognized as urgent, gratification is expressed at the relief already obtained under the ten-year housing program authorized by Congress three years ago.

Whether the army economy study being conducted at the direction of President Hoover will affect the program to any great extent has not been indicated. During Congressional consideration of the project it was estimated that an expenditure of about \$10,000,000 would be necessary. Because of the large sum involved it undoubtedly is being given close attention in the new study of army costs.

PROGRESS TO DATE  
Provisions already have been made for permanent quarters for more than half of the 40,000 officers and enlisted men, who were living five years ago in tents or flimsy wooden structures thrown together during the war for only four or five years of service. A larger number still live in temporary quarters but the army authorities are gaining hope that permanent, sanitary and comfortable buildings will be provided for all before the end of the ten-year period.

Congress has appropriated more than \$37,000,000 for new army-post living quarters in the last few years. Some have been completed and others still are in the planning stage. Altogether, the funds thus far made available are expected to pay for permanent quarters of 177,000 officers, 171 noncommissioned officers, 23,394 enlisted men and 117 patients. Other appropriations have been authorized but not actually made.

QUARTERS CONSTRUCTED  
Since the fiscal year 1927, when the program went into effect, new permanent living quarters have been constructed for almost 6,000 officers and enlisted men. In the same period it has been found possible to transfer more than 6,000 from posts where they could not be satisfactorily housed to others where better shelter is available.

During the Congressional discussion of the housing problem, while it was in its most acute stage, much thought was given to a plan under which the Regular Army would be concentrated in fewer and larger posts at strategic points. No serious attempt, however, was made to put it into effect despite the argument that it would reduce the cost of garrison overhead by elimination of a great number of small, scattered posts with their separate supply, medical and other administrative staffs and provide better training facilities for a modern army.

The cost of putting such a project into effect, it was estimated, would be very high. Further objection was found in the unwillingness of many communities to lose army posts which they are more or less dependent for their existence, and various military complications were foreseen which also helped to offset the expected advantages.

EX-CONSUL'S OPIUM CASE TRIAL BEGUN

Prosecutor Says He Will Prove Existence of Giant Pacific Smuggling Ring

NANKING, Oct. 25. (AP)—Trial was begun today for Ying Kan, former Vice-Consul at San Francisco, and his wife on charges of having attempted to smuggle opium valued at \$600,000 into San Francisco last July.

Presenting his case in the criminal division of the Nanking Chinese District Court, the prosecutor said he expects to prove the existence of a giant trans-Pacific smuggling ring.

Referring to the assertion of customs officers in San Francisco that they discovered 300 five-tael tins in her baggage on her return from China, Mrs. Kan testified that persons in Hongkong, Shanghai, Honolulu and San Francisco inspected her baggage prior to its seizure in San Francisco.

Swenson of the United States Navy.

They were divorced in 1928. Later Mrs. Abercrombie fled to Portland, Or., with the children and on her return custody of them was awarded Swenson.

# BOYS USURP GIRLS' DUTIES

Down Men Students Working as Servants, But Co-eds Shun Such Jobs

ST. LOUIS, Oct. 25. (AP)—Records of the Washington University employment bureau show that it is men students instead of the women students who are willing to do household work to help pay their way through college.

Not one girl has registered for household work or has accepted any of the numerous calls for such employment, but a dozen or more men are working as house servants. Others are tending furnaces, washing windows, acting as companions for young boys, waiting on tables and doing other duties as servants.

## ANIC SUBSIDES ON STOCK MART

**Price Changes Normal and Trading Orderly**

**—**

**Further Restored by Entry of Powerful Support**

**Moderate Recovery Shown on Lighter Turnover**

**—**

NEW YORK, Oct. 28. (P)—Stable prices and orderly trading returned to a severely punished stock market today. Further large-scale volatility had to be averted by powerful interest took the situation firmly in hand, and hurried buying orders into the market where they began to waver.

Trading reached gigantic proportions for a time, but in the latter part of the session, the tide of speculation quickly began to ebb, and prices slackened up to a more normal pace. Total sales were 5,920,000 shares.

market, and the duration of 12 to 16,000. The ticker ran for an hour and thirty-two minutes after the closing.

Measuring statements regarding the fundamental soundness of the market, the leading bankers and executives of the market, a soothing effect upon speculation was noted. The market was not from responsible quarters that the leading bankers had organized a campaign to bring about a market discouraged further "bearish" speculation.

The market rose rather generally from 10:30 to nearly 20 points in an uptrend in the opening, which appeared to be caused by a reaction to the earlier move. However, the backward movement weakened marginal accounts and the market was again taken by traders who were looking for a turn in the market. By investors, who, throughout the day, the higher level of speculation was maintained.

**DRIPS NOMINAL**

The leading share failed to go up more than 10 points, and in a few points below yesterday's closing levels, however, for supposed reasons. The substantial downturn threatened to cause some traders had looked for a recovery in the market. The observers generally were not surprised. Much of the short coverings was noted in the market rally from bottom levels, and the organized support back of the market.

business news of the day comes in generally satisfactory form. President Hoover stated that he considered fundamental business of the country in good shape. He pointed out that production and distribution are well maintained. Headquarters of the American Iron and Steel Institute indicated that the steel industry is in satisfactory condition for this time of year, and that earnings are running at high levels. The weather is not expected to cause some recession in trade, owing to unfavorable weather, but industry is not expected to be affected in any aspect of the commercial situation that has furnished cause for concern.

**CREDIT IMPROVES**

The credit situation was regarded as vastly improved by the drastic action of the Federal Reserve Board. Both here and abroad the market collapse was regarded as one of the most satisfactory effects upon credit. Cash holdings of the farmer, holdovers in the bank, and time loans were expected to be 10 per cent all year. Bankers' deposits and deposits of the public were expected to be 10 per cent.

Shipping prices generally were firm. Several important lines were expected to be in operation by the end of the year. The shipping market predominated throughout the week with a few gains running from 10 to 20 per cent.

**Vigorous Buying Stimulates Sharp Rally to Swing Local Stock Prices Up Again**

Supporting the contention that Thursday's crash was more technical than fundamental, prices on the Los Angeles Stock Exchange yesterday rebounded back to a height more closely approximating the levels of a week ago. Strong buying on the assumption that the time was opportune to enter the market on the long side, strengthened by the statements of industrial and financial leaders, swung the list upward with the advance halting only on the closing going.

The session at 123 1-4. Southern California Edison moved up a point to 68. International Reinsurance jumped 4 3-4 to 55 and Douglas Aircraft scored an unusually sharp gain with a rally of 4 1-2 points to 21 1-2. Los Angeles Investment was also outstanding with a rally of 2 1-4 points to 19 3-4. Pacific National recovered 2 points to 14 and Western Air Express shot up 1-3 to 31 1-4. Transamerica, 1-3 to 31 1-4 and Rio Grande, 1-3 to 22 3-4. Union Oil advanced 1 point to 49 and Union Associates, 2-4 to 44 1-2. Standard of California rallied 1 5-8 to 69 7-8 and Pacific Western 1-3 to 16 3-4. Pacific Finance was a feature of the recovery on a spectacular display of strength. This issue, which dropped 77 points to 212 and rallied 13 1-2 points Thursday, shot up another 6 3-4 points and ended at \$7,752.147.

# Tone on Wheat Mart Firmer at Higher Levels

CHICAGO, Oct. 25. (AP)—To a considerable extent the wheat market today retained independence from stock market domination and responded more freely to outstanding grain trade developments. Broad European demand for North American wheat, with exports during today estimated at as much as 2,000,000 bushels, went far to bolster wheat values at the last, notwithstanding that earlier the market had collapsed to a level below yesterday's finish. Corn closed at 1 1/2 cents, wheat at 1 1/2 cents, and soybeans at 1 1/2 cents. The market was characterized by a general upward movement, with many issues showing gains. The Chicago Stock Exchange reported a net gain of 1 1/2 points for the day. The leading issue, the Chicago Stock Exchange, advanced 1 1/2 points to 123 1/4. Other notable gains were seen in the Chicago Stock Exchange, which advanced 1 1/2 points to 123 1/4.

Although frost-free wheat was not the effect of Wall Street fluctuations, the wheat market today showed a sharp rise on security values. During the earlier declines in particular, wheat speculators realized that the wheat market was not a speculative market, but a market for the future. The market was characterized by a general upward movement, with many issues showing gains. The Chicago Stock Exchange reported a net gain of 1 1/2 points for the day. The leading issue, the Chicago Stock Exchange, advanced 1 1/2 points to 123 1/4. Other notable gains were seen in the Chicago Stock Exchange, which advanced 1 1/2 points to 123 1/4.

# When the air clears

we are confident that the firm structure of American Finance will be unshaken, that the securities of managed and conservatively operated corporations whether large or small will prove to be on a sound foundation—perhaps more desirable than in long period past. At such a moment this we believe confidence in our financial institutions and a little reliance on the strength of our national insurance and prevent sacrifice that may be regretted later.

# A Buyer's Market

Anticipating such a "crash" in the market has now occurred, we have for many years consistently declined to recommend to our customers the purchase of many securities. We now feel certain that the bottom has been reached on a number of Industrials, Utilities and Motors and that the time is ripe in key in order to reap substantial returns in these particular issues. We invite those who are interested in immediate market play on the upward trend to open accounts with us on a conservative basis and receive the benefit of our judgment on particular stocks we have in mind that should respond to rapidly as they have defined. Promptness is essential if you are to avoid the loss of today's market conditions and the recommendations which we make to you. Call or telephone.

# Pantages Jury Gives No Hint of Deadlock After Nearly Three Hours' Deliberation

## VERDICT DELAY CHEERS ACCUSED

Many Objections Made by Magnate's Counsel

seemed to come his first realization that his millions could buy him little in the courtroom.

"Gilbert, Gilbert, they are going to put me in jail."

So did Pantages greet the court's instructions when he leaned over to his senior counsel after Judge Frick had made the order.

**DEFENDANT WILTS**

But a moment later Defense Counsel Ford and Clever won from Judge Frick the right for Pantages to leave the courtroom in custody of two deputy sheriffs to be returned with the jury at 7 o'clock.

While Pantages' shrill whisper to Attorney Gilbert came as an audible sign of distress his actions during the long afternoon while he sat and listened to Dist. Atty. Fitts' bitter denunciation of him to the jury spoke louder than words of a man near the point of collapse.

With Fitts' thundering and pointing his finger in scorn at Pantages as he delivered the final prosecution argument to the jury, the man charged with having violated a girl, little more than a child, broke out into a heavy sweat and then with a frozen sneer on his lips sat without life-like motion.

**"DEFENSE OF DESPERATION"**

"Alexander Pantages is on trial here before you men and women and His Honor, Judge Frick, charged with having attacked a young girl, Eunice Pringle, only 17 years of age."

"So did Fitts open his two-hour argument.

"His defense has been one of desperation," continued the District Attorney, "his attorneys, Mr. Gilbert, Mr. Ford and Mr. Clever, have advanced everything possible in this case but a defense to the charge which, Pantages has made."

"No defense to the charge of having attacked this young girl, a charge which fell from her own lips here in this courtroom and which has been supported by other testimony and evidence, has been made."

And then turning to Pantages with a shaking fist Fitts thundered: "And do you dare say that your defense has been made? Well I will tell you. There is no defense. He is guilty."

Then, beginning with the opening statement of the defense made by Gilbert more than three weeks ago Fitts swept on through the testimony offered both by the State and by Pantages in his own defense.

**"MANY OBJECTIONS"**

Some of the defense witnesses Fitts disposed of with a wave of the hand but others came in for an attack so bitter that time after time defense counsel led to the stand and protested to the court that the prosecutor was going outside of the record and assigned his remarks as error.

Down through the long afternoon went Fitts hammering and tearing at the Pantages' defense, and throughout his entire argument the defense counsel continued to interrupt and assign his conduct in error.

At last, after a long and bitter attack, Fitts came to the end of his remarks and declared the jury to be the judge of the case.

Overhead Biffie, defense witness, who was arrested on a perjury charge, and then indicted by the grand jury on the day he left the witness stand and came in for a large part of the District Attorney's scathing remarks.

"This man Biffie testified that he overheard a conversation between Nicholas Dunav and Eunice Pringle a short time before this attack took place. He said that he heard some kind of a plan or plot between the two," said Fitts.

He continued to want to tell you that this man lied and that he committed perjury from the witness stand and I can prove it out of the mouths of other witnesses and from his own lips."

The District Attorney went ahead and pointed out to the jury the various statements and facts which he asserted prove his statement.

**INSTRUCTIONS READ**

Shortly before 4 o'clock in a burst of activity the District Attorney closed his case and Judge Frick with a dead silence throughout the courtroom read his brief instructions.

The judge gave the jury fourteen separate instructions. The first nine were general, covering criminal trials and the various laws governing evidence. The next four had to do with the nature of the charge against Pantages and explained statutory attack, the charge against him. The last informed the jury that any one of the following three verdicts could be returned.

(1) Not guilty.  
(2) Guilty with a recommendation for a County Jail sentence.  
(3) Guilty with a recommendation for a State prison sentence.

Under the California law if the jury returns a verdict of guilty of one-year can be imposed but if the sentence must be served in the State prison the maximum is fifty years with the sentence to be fixed by the prison board after the serving of six months.

**DEFENSE PLEAS MADE**

The entire morning session went to Defense Counsel Ford and Gilbert in their arguments to the jury. Thursday Chief Deputy District Attorney Stewart and Defense Counsel Gilbert argued and yesterday after Ford had discussed the evidence and testimony for more than an hour Gilbert closed the

### QUIZ ON DAVIS TAKES RECESS

(Continued from First Page)

photographer asked permission to photograph Quinn. He declined to allow it, stating that he had been "in the picture business myself for years and do not want any photograph taken."

"I am not afraid of you, my friend," said Quinn, belligerently, giving the photographer a "hard" stare. "I can take you out in the alley."

"All right, come along," said the photographer.

"I will just as soon as this case is finished," said Quinn.

### CROWD GATHERS

At that moment a group of Quinn's friends crowded around the photographer, one of them, a huge, heavy-set individual, with the appearance of a pugilist. This crowd all began to scowl and laud Quinn's prowess and his ability to "take" the photographer. Brother James Quinn joined the group.

Cooler counsel prevailed and Quinn contented himself with saying: "I am not afraid of anything when fighting the devil."

The scene was somewhat similar to that of a week ago, when Quinn threatened to "take" John P. Miller, editor of the Searchlight, out in the alley for a remark he made during the police court hearing.

Despite the belligerent attitude of the Quinn crowd, there was no trouble. Quinn's friends were called to watch three entrances to the building, in addition to Quinn's private offices at the rear.

### SICK FRIEND ARRIVES

The only representative present in behalf of Chief Davis who entered the room reserved for the witnesses, was John P. Booth, aged San Pedro resident, who is Republican county committeeman for the Seventy-first District. He got up in great detail her version of the attack and it was while giving her story that she told of her shame.

**CASE REVIEWED**

Late in the afternoon of August 9, last, according to Miss Pringle, while she was attempting to book an act, written and directed by Nicholas Dunav, Pantages lured her into a small room on the mezzanine floor of the Pantages Theater building and there attacked her. During the attack the young dancer charged Pantages with holding his hand over her mouth so that she could not cry out and that when she did escape he then declared that the entire affair was a frame-up.

It was after the charge had been made by Miss Pringle that Pantages was taken into custody by the police and a preliminary hearing, at which he was bound over for trial, was conducted.

Between the first hearing and the trial which got under way on the 1st inst., Dist. Atty. Fitts charged that efforts were being made by Pantages to buy witnesses and to produce perjured testimony at the trial. A number of prosecution witnesses were produced who swore that they had been instructed to lie by Pantages and it was then that Biffie was taken into custody and indicted.

### THEFT CHARGED TO RADIO ANNOUNCER

Charles E. Kennison, Jr., 27-year-old radio announcer, yesterday was arrested on a charge of suspicion of burglary, following his admission, according to Detective Lieutenants Gorman and Sullivan, that he had stolen a number of checks from the mail of A. F. Rance, his employer, at 500 North Normandie avenue. Kennison was taken into custody at a radio station where he was charged with a charge of petty theft involving the asserted theft of a check for \$1. With his purported confession, however, he was released on the more serious charge.

### EARLY MAILING ADVISED FOR GIFTS TO GO ABROAD

Postmaster P. G. O'Brien yesterday reminded gift-mailers of Los Angeles that if Christmas presents sent by mail to foreign countries are to reach their destinations by Christmas Day they must be mailed here well in advance of that date.

District Attorney's Quis Discloses Floodman Baby Born Son, Not Daughter

Although Baby Gertrude Floodman may have been given a feminine name by her mother, an investigation held yesterday at the California Lutheran Hospital, Dep. Dist. Atty. Scott and Attorney Smith determined that the infant of Mrs. and Mr. Knute Floodman is a boy and that there has been no substitution of another child for him.

G. W. Olson, superintendent of the hospital, yesterday called on witnesses for the investigation. The witnesses present at the birth and the attendants who cared for the infant until it was taken home, were expected to testify at a new trial. It doesn't seem possible—but it is true of one-half the population that Christmas will be here before we know it! Why, aren't parties in the planning now and there is more excitement about to serve for the various occasions.

Let me come to your assistance and tell you about Quasi (pronounced Gwah-see) Cooking Sherry, and Quasi Sweet Sherry Flavors, which are given to us by the Italian Vineyard Company who own and operate the largest vineyard in the world at Quasi, Cal.

Those who have joined Alice Walton Tobbs's class in painting lovely wall hangings held afternoons and evenings at Mathews Paint Company's Hill-street store, are delighted beyond words with the work.

The housewife who has a great deal of unexpected company is wise to always have on hand a head of lettuce and a jar of mayonnaise in the refrigerator. Then a dainty salad is always forthcoming to garnish an emergency meal.

Old carpets do make the very nicest kind of floor rugs—have you ever had any made by the Hoffman Rug Works, 2814 West Jefferson (Beverly Hills)? They do exceptionally fine work and charge so little! Yes, they also make colonial rugs from rags.

Close at hand should be a cupboard, holding salt, spices, vinegar, flavorings and all the little odds and ends that are constantly used in cooking. Around the sides of the cupboard should be hooks to hold cups, spoons, the eggbeater and measuring glass.

## THREE WOMEN DIE IN TRAFFIC

Electric Train Strikes Car  
With Fatal Result

Two Killed and Another  
Hurt Crossing Streets

Small Boy Also Run Down  
by Passing Auto

Three women were killed yesterday in traffic accidents, while several others were injured in various crashes. One fatality occurred when a speeding electric train struck an automobile in which were two women, one of whom was killed instantly, while the other received serious injury.

A Pacific Electric train, bound from Venice, struck a touring car on the crossing at Venice and National boulevards. In the automobile were Mrs. Marion L. Stevens, 36 years of age, of 11310 Eucalyptus street, Inglewood, and Mrs. Kathleen McInnis, 46, married, of an apartment-house at 8223 Sunset boulevard. Police are not certain which one was driving.

Witnesses reported that the car had been halted at the crossing to await the passing of a westbound train, and then had been driven across the tracks just as a city-bound train bore down. The in-bound train, in charge of Motorist C. R. McReynolds, struck the car and dragged it ninety feet. Stevens was killed outright. Her body was sent to the Hardy undertaking establishment, Inglewood. Mrs. McInnis received a skull fracture. She was taken to Community Hospital, Culver City.

### HAWTHORNE FATALITY

Mrs. Paul Burdick, 55, of 1470 Hawthorne street, was fatally slain last night, when struck by a car driven by Dr. J. H. Lang of 133 East Commonwealth street. Police reported. Witnesses told Detective Lieutenants Thomas and Full that Mrs. Burdick walked across 86th street midway between Norfolk and Lancaster streets. Her skull was fractured, and she was dead on arrival at Pasadena-avenue Receiving Hospital.

While crossing Ballona street in Hawthorne just west of the intersection with Hawthorne boulevard last night, Mrs. Martha Isabel Hayward, 67, of 347 West New York street, Hawthorne, was struck and instantly killed by an automobile driven by Alfred Skaff of 308 West Carolina street. She was taken to the hospital.

### WOMAN STRUCK DOWN

Struck by an automobile yesterday Mrs. George Deal, 51 years of age, a seamstress, of 4540 Elenwood drive, received such serious injuries that surgeons expressed fears of fatal outcome. According to police she stepped from the curb after the signal bell rang at Seventh and Los Angeles streets. She was run down by a car driven by Reuben Chavarrin of 1589 North Henry street. Mrs. Deal received a possible fracture of the skull, possible internal injuries, concussion of the brain and injuries to one leg. Dr. Leopold of Georgia-street Receiving Hospital reported her condition very serious.

Officer Olson and Napier learned from witnesses that Mrs. Deal stepped in front of the car. The officers added that investigation disclosed that the car's brakes were in no condition to stop the machine promptly.

Following a collision of automobiles yesterday, Sgt. Adams and Policemen Hardley and Rooney of the Georgia-street division pursued and arrested J. P. Lucius of 1130 South Grand avenue. He was booked on charge of reckless driving. The police said that Lucius, while driving, across the Washington-street and Westmoreland-avenue crossing, hit a car driven by Dr. P. R. Keen of 1115 Cabotia canal. Venice, and there drove on without stopping.

Run down by a motor car last night, Dale Weeks, 6, of 1454 Silver Lake boulevard, was rushed in an unconscious condition to Georgia-street Receiving Hospital, where it is said he has a possible fracture of the skull. The car was driven down at Scott Place and Silver Lake boulevard by a car driven by W. J. Poterell of 2841 Hollywood drive, police reported.

## ART CLUB TO PROMOTE MERCHANTS' YEARNINGS

The undertaking of a second unique move in the California Art Club's purpose to promote general public interest in art is announced in plans for the Business Men's Alliance of the California Art Club. It is proposed to offer opportunity for expression to men engaged in the affairs of the world today, who have a yearning for painting. Men with such a tendency may join the alliance and enter groups studying one evening each week, making occasional outdoors sketching trips. They will have privileges of the club also.

Members of the club include foremost artists of the Southland and teachers in every art school hereabouts who will act as instructors for the novices. Fraternization of the business men with the artists and patrons of art who frequent the club's home in Barnsdall Park is to be encouraged with the idea in mind of extending the scope of the

## FLYWEIGHT ESCAPES BY TIGHT SQUEEZE

Robert White, alias Johnny Buff, said by police to be a fifty-four taken into custody, booked at the City Jail on suspicion of conspiracy to violate the Jones Act, police, Federal prohibition officers and District Attorney's office investigators yesterday prepared to take the suspect before a contemplated special session of the county grand jury today.

Except two, all of those held in the City Jail were taken into custody in a series of seven unexpected raids conducted Thursday afternoon.

PICKED SQUADS  
The raids were made by picked squads from the police department under Detective Lieutenants W. I. Justin and L. A. Justin of the Chief's intelligence bureau and emergency division, and the Federal prohibition officers under Inspector P. H. Holland. Two pool rooms and five bottle supply houses were raided simultaneously. The latter, according to the authorities, were places where wholesale orders were taken for large quantities of liquor.

In each case "busts" of a case at a time had been made by the police, not even for license or when the arrests, the officers stated.

The raids, according to Chief of Police Davis, were the result of several conferences between himself, Prohibition Administrator Woods and Dep. Dist. Atty. Clark.

ADDITIONAL RAIDS  
Working along the same line, officers under Lieut. Warren Justin yesterday raided a dwelling at 731 West Olive street, Compton, arrested Thomas Van Horn, and contacted, they reported, thirty-one twenty-five-gallon and fifteen-gallon barrels of whisky, and 150 gallons of the same liquor in various-sized bottles.

In a second foray yesterday the same squad arrested John Cicippio and five others in a pool room at 675 North Boyle avenue.

### PLINY OF TIME

It is believed by police that Buff had at least four hours' start before his escape was discovered, although some are of the opinion that the former boxer will remain in hiding in the city for the present. Buff made his escape through a ventilating transom above the jail store room, in the south brick wall of the building facing an auto park fronting on Hill street.

Two of the bars an inch in diameter were broken through the top of the wall and bottom. No trace of the saw or the bars was found.

### Students Taught How to Study

"Nothing that a student can learn is more important than learning how to study," declares Dr. J. S. Nofsinger, director of the National Home Study Council of Washington, D. C. "Half an hour of concentrated work will accomplish more than several hours of desultory, half-hearted effort and concentration is chiefly a matter of habit. Forming a habit of clear, concentrated study is the key to success."

"Stephen E. Kramer, assistant superintendent of schools of the District of Columbia, has devised the following set of rules which tend to develop good habits of study. They are particularly applicable to the home-study student:

- (1) Have a regular time for study. Let nothing interfere with it. This will be hard at first but will grow steadily easier as you form a habit.
- (2) Have a regular place for study, a quiet room, not too warm; good light at left, a straight chair and table, the necessary books, and exercise a moment.
- (3) Sit straight and go to work vigorously with confidence and determination, without lounging or waiting time. When accomplished, rest for a moment and exercise a moment.
- (4) Study independently. Do your own work and use your own judgment, asking for help only when you cannot go on without it.
- (5) Concentrate your attention. You can train yourself to ignore distractions, to keep your thoughts on your work even when the door opens, or someone crosses the room.
- (6) In memory work, search for associations, connections of all types, in order to help yourself remember facts. Do not stop your memory work the moment you can give the material perfectly. Repeat it at least three times after that and repeat it again the next day. Use all your senses, eye, ear, voice organs and hand in fixing the associations of the new idea.
- (7) Find a friend to study with. With the qualification of his daughter as a doctor, Mayor J. T. Hallinan of Lewisham, Ireland, because his family holds a record in the medical world for six of his children are now practicing. Five sons had previously passed examinations, and another, aged 12, declares that she will be a doctor. Neither Hallinan nor his parents were medical men. All his sons served in France with the Royal Army Medical Corps, and two were decorated with the Military Cross.

PICKED SQUADS  
The raids were made by picked squads from the police department under Detective Lieutenants W. I. Justin and L. A. Justin of the Chief's intelligence bureau and emergency division, and the Federal prohibition officers under Inspector P. H. Holland. Two pool rooms and five bottle supply houses were raided simultaneously. The latter, according to the authorities, were places where wholesale orders were taken for large quantities of liquor.

In each case "busts" of a case at a time had been made by the police, not even for license or when the arrests, the officers stated.

### PLINY OF TIME

It is believed by police that Buff had at least four hours' start before his escape was discovered, although some are of the opinion that the former boxer will remain in hiding in the city for the present. Buff made his escape through a ventilating transom above the jail store room, in the south brick wall of the building facing an auto park fronting on Hill street.

Two of the bars an inch in diameter were broken through the top of the wall and bottom. No trace of the saw or the bars was found.

### Students Taught How to Study

"Nothing that a student can learn is more important than learning how to study," declares Dr. J. S. Nofsinger, director of the National Home Study Council of Washington, D. C. "Half an hour of concentrated work will accomplish more than several hours of desultory, half-hearted effort and concentration is chiefly a matter of habit. Forming a habit of clear, concentrated study is the key to success."

"Stephen E. Kramer, assistant superintendent of schools of the District of Columbia, has devised the following set of rules which tend to develop good habits of study. They are particularly applicable to the home-study student:

- (1) Have a regular time for study. Let nothing interfere with it. This will be hard at first but will grow steadily easier as you form a habit.
- (2) Have a regular place for study, a quiet room, not too warm; good light at left, a straight chair and table, the necessary books, and exercise a moment.
- (3) Sit straight and go to work vigorously with confidence and determination, without lounging or waiting time. When accomplished, rest for a moment and exercise a moment.
- (4) Study independently. Do your own work and use your own judgment, asking for help only when you cannot go on without it.
- (5) Concentrate your attention. You can train yourself to ignore distractions, to keep your thoughts on your work even when the door opens, or someone crosses the room.
- (6) In memory work, search for associations, connections of all types, in order to help yourself remember facts. Do not stop your memory work the moment you can give the material perfectly. Repeat it at least three times after that and repeat it again the next day. Use all your senses, eye, ear, voice organs and hand in fixing the associations of the new idea.
- (7) Find a friend to study with. With the qualification of his daughter as a doctor, Mayor J. T. Hallinan of Lewisham, Ireland, because his family holds a record in the medical world for six of his children are now practicing. Five sons had previously passed examinations, and another, aged 12, declares that she will be a doctor. Neither Hallinan nor his parents were medical men. All his sons served in France with the Royal Army Medical Corps, and two were decorated with the Military Cross.

Shaw's Diet Revealed  
Europeans interested in the extension of the tenure of life have been studying the diet of Bernard Shaw. He recently revealed by his friend, the famous Irish writer at 72 years of age apparently thrives on it. Shaw's favorite meal consists of two eggs, boiled, fried, or in an omelette, a plate of rice or macaroni, a dish of fried vegetables, another of fresh vegetables, a salad, a sweet and fruit.

Run down by a motor car last night, Dale Weeks, 6, of 1454 Silver Lake boulevard, was rushed in an unconscious condition to Georgia-street Receiving Hospital, where it is said he has a possible fracture of the skull. The car was driven down at Scott Place and Silver Lake boulevard by a car driven by W. J. Poterell of 2841 Hollywood drive, police reported.

## RUM ACTION DUE BY GRAND JURY

Special Session Scheduled Today as Raids' Sequel

Thirty-seven Suspects Will be Taken Before Body

Additional Forays Conducted by Picked Policemen

With thirty-seven men, culled from a total of fifty-four taken into custody, booked at the City Jail on suspicion of conspiracy to violate the Jones Act, police, Federal prohibition officers and District Attorney's office investigators yesterday prepared to take the suspects before a contemplated special session of the county grand jury today.

Except two, all of those held in the City Jail were taken into custody in a series of seven unexpected raids conducted Thursday afternoon.

PICKED SQUADS  
The raids were made by picked squads from the police department under Detective Lieutenants W. I. Justin and L. A. Justin of the Chief's intelligence bureau and emergency division, and the Federal prohibition officers under Inspector P. H. Holland.
